

COVID-19 for Meet Directors

Updated 3/30/22

Planning

- Designing and setting courses are not impacted by protocols, just how we manage the meet.

Start / Finish Area

- Masks are **not required for participants** in the start/finish area or out on the course.
- **Mask are recommended but not required for volunteers** while working the table in the start / finish area.
- Signage explaining the protocols will be in the meet box. Please post these in a visible area.
- Disinfectant and hand sanitizer will be in the meet box. Please make them available at the tables and use them when appropriate.
- The club has gone paperless as much as possible by instituting an online season participation waiver and online payment. However people can still fill out season waiver or pay in-person.

Out on the Courses

- Masks and face coverings are **not required** when out on a course.
- If participants are uncomfortable touching shared equipment, approaching within 3 feet of the control will be considered a punch.
